FOLD HERE

STEELWORKS TOUR

BlueScope accounts for more than \$2 billion in sales of locally produced steel each year, and the Port Kembla Steelworks has a production capacity of just over 3 million tonnes of steel per annum.

The Steelworks Tour takes you inside the gates and allows you to get up close to the heavy machinery and the spectacular action that is the steelmaking process. You will also learn about BlueScope's commitment to reducing their environmental footprint and the various projects in place that are already making a difference.

Join us on a tour of the steelworks, it is truly a showstopper!

BOOKING AND INFORMATION

Come Inside and fully experience the sights and sounds, smells and feel of Steelmaking.

Public Tours run on Friday and Saturday mornings. Full details including bookings can found on our website.

We also offer private group tours for schools, clubs and industry groups. Please contact us direct to lock in your preferred date, we are happy to assist in the planning of your tour and associated itineraries.

WORKING PORT TOUR

Port Kembla Port is an international trade gateway for bulk agriculture, construction and mining industries. It is New South Wales' motor vehicle import hub & home to the state's largest grain export terminal. Port Kembla contributes \$2.9 billion annually to New South Wales' Gross State Product and supports about 10,000 jobs.

Join us on our Working Port Tour to see & learn more about the Port Kembla Harbour
